St Bart's Family Service

Supported, transitional accommodation for families experiencing, or at risk of, homelessness.

What is our Family Service?

Located within the Perth metropolitan area, this low-level support service provides transitional accommodation for up to twelve months while you are actively seeking to secure a long-term solution for you and your family.

Throughout your stay with St Bart's you must engage with our case management process to help you explore suitable, long-term accommodation options.

We also offer a range of support, referrals and other services that help you achieve your goals.

Please note:
This is not crisis accommodation and there may be a waiting list for vacancies.

Family Support Services

We base our services on a recovery and trauma-informed practice. As your level of independence and confidence grows you become ready to move into long-term accommodation.
